## **Product Data Sheet**

### **AeroMarine Mother Mold**

AeroMarine Mother Mold is a paste-like resin that is used as a rigid backing for flexible molds. It will hold a vertical surface without sagging. When cured, it provides a hard, durable shell that allows the user to make thin elastomeric molds while providing dimensional stability. The mix ratio is 3 parts B to 1 part A by volume, and the pot life is about 9 minutes. The demold time is about 90 minutes.

John Greer and Associates and/or AeroMarine Products (seller) make no warranties, express or implied, including, but not limited to, any implied warranty of merchantability or fitness for a particular purpose. User is responsible for determining whether the seller's product is fit for a particular purpose and suitable for a user's particular method of application. Many factors can affect the use and performance of seller's product. Given the variety of factors that can affect the use and performance of seller's product, some of which are uniquely within the user's knowledge and control, it is essential that the user evaluate the seller's product to determine whether it is fit for a particular purpose and is suitable for the user's method of application.

If the seller's product is proven to be defective, THE EXCLUSIVE REMEDY, AT SELLER'S OPTION, SHALL BE TO REFUND THE PURCHASE PRICE OF OR TO REPAIR OR REPLACE THE DEFECTIVE PRODUCT. Seller shall not otherwise be liable for loss or damages, whether direct, indirect, special, incidental, or consequential, regardless of the legal theory asserted, including, but not limited to, contract, negligence, warranty, or strict liability.
